## Business Buildings-A Profitable Investment

Business buildings of downtown New York offer one of the best forms of investment known. Practically all are filled to capacity and at very high rentals. By proper management they can be made to show a very good return on the money invested in them.

Pease & Elliman have on their list a number of office and loft buildings which can be purchased at very low figures. In many cases about one-third of their leases expire this Spring, which will naturally be renewed at a higher rental than is now being paid, or you could use this space for your own business.

Most of these buildings carry large mortgages and for that reason require but little cash in buying them. If you have money to invest, you cannot find a safer way. At your request, Pease & Elliman will furnish you with a special list of properties giving you full particulars and what you may expect.

SPECIAL-SHIPPING CENTRE. Near Whitehall Street and Custom House. Office building, 50,000 square feet, possession May 1st, 1820. With a few algerations this can be modernized and made as fine a business home as there is in the city. Let us show you.
